+Personal

I'm Damien, a graphic designer focused on visual **systems, motion, and identity**. I use typography as a starting point for building structure, rhythm, and tone across print, motion, and experiential work. Influenced by music and pop culture, I'm interested in how visual language adapts across different mediums.

+Experience

Graphic Designer & Print Assistant Jan. 2025 - present
Campus Printing and Design / 49er Shops - On-site
Long Beach, CA

Designing orders for clients and being involved with print jobs, recommending materials and design elements that are best suited for their projects.
